MONA HADIZADEH

FRONTEND DEVELOPER

United States | (310) 990-5791 | mona.ricks84@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Frontend Developer trained through the FES Institute Frontend Development Bootcamp, with hands-on experience building responsive, user-focused web applications using React, Next.js, TypeScript, JavaScript, HTML, and CSS. Skilled in translating Figma designs into functional interfaces, developing reusable components, integrating APIs, and creating responsive experiences across devices. Built projects spanning AI-powered skincare analysis, audiobook discovery, movie search, and NFT marketplace interfaces.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Redux, Responsive Web Design

Development: REST APIs, API Integration, Git, GitHub, Vite, Local Storage

Additional: Node.js, Python, Linux, SQL, Figma, Cybersecurity Fundamentals

SELECTED PROJECTS

Skinstric - AI Skincare Analysis | Next.js | React | TypeScript | REST APIs | Figma

- Built a responsive multi-page skincare analysis experience with personal-information, location, image capture/upload, and demographic analysis flows.
- Implemented reusable React components, local storage, API interactions, validation, camera retake flows, and responsive layouts across device sizes.

Summarist - Audiobook Platform | React | JavaScript | Firebase | Responsive Design

- Developed a responsive audiobook interface with book discovery, search, audio playback, and reusable React components.
- Worked with application state and responsive layouts to deliver a clean experience across device sizes.

React Movie Discovery App | React | Vite | JavaScript | OMDb API | Local Storage

- Built a movie discovery application with featured titles, search, dark mode, and favorites persisted with localStorage.
- Organized the interface into reusable components and managed application data and interactions with React.

NFT Marketplace Platform | React | JavaScript | CSS | Responsive Design

- Extended a provided starter project and design into a responsive NFT marketplace, implementing dynamic React functionality, API-driven content, responsive layouts, and interactive UI components.
- Created reusable components and interactive UI elements while maintaining a clean component structure.

EDUCATION

Bachelor's Degree in Software Engineering | Azad University | 2004-2008

CERTIFICATIONS & TRAINING

Frontend Development Bootcamp - FES Institute | Certificate of Graduation

Practical Frontend Internship - FES Institute | Completed as part of the Frontend Development Bootcamp

Google Cybersecurity Professional Certificate - Google | October 2024 | Verify Credential
